

## Cybersecurity Insights Report 2022 The State of Cyber Resilience

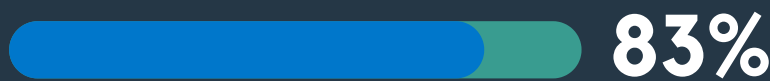

Nearly 9 in 10 of organizations  
Have Been Victim to Some Type of  
Cyberattack in the Past 3 Years.

Cyber execs  
admit that their  
teams struggle  
keeping up with  
the changing  
cybersecurity  
threat  
landscape.

Organizations Are Falling Short  
Of Their Goals and Face A Slew  
Of Challenges Mitigating,  
Detecting, and Responding To  
Cyber Threats.

Feel their biggest challenge is  
maintaining a pulse on new threats

Have experienced more attempted  
cyberattacks since the pandemic

Have been impacted by more successful  
cyber attacks since the pandemic
